# Product Guide

Germicide/Bleach

Food Safe

# Bleach S

5.5 kg

A chlorine-based germicide/bleach with sodium hypochlorite.  
This product is food safe and suitable for disinfecting and bleaching everything from chopping boards and dish cloths to fruits and vegetables.

## Features

### ● Food Safe ●

Meets Japan's standards for food safety (Japan's Specifications and Standards for Food Additives).

#### Description

A pale greenish-yellow liquid with a chlorine smell

### ● Crushable Container for Easy Disposal ●

The soft bottle container can be crushed to one-third its original volume for easy disposal.

## Instructions for Use

Applications	Suggested Amounts	Instructions
Disinfection of fruits and vegetables	30 mL in 10 L of water	Immerse in the diluted solution for 5 minutes then rinse thoroughly with running water.
Bleaching and disinfection of dish cloths and hand towels	60 mL in 10 L of water	Soak for about 30 minutes (a little longer if there is excessive dirt) then rinse thoroughly with water. If an item cannot be soaked, soak a cloth in the solution, wring out the cloth of excess solution, wipe the item with the cloth, then blot with water.
Bleaching and disinfection of chopping boards, eating utensils, bowls, cleaning utensils, garbage cans, and colanders	100 mL in 10 L of water	
Bleaching of tea stains		
Disinfection of refrigerators and utensil cabinets	20 mL in 10 L of water	Soak a cloth in the solution, wring out the cloth of excess solution, wipe the item with the cloth, then blot with water.
Disinfection of drinking water	2 to 15 mL in 1 ton of water	Use according to the directions of an expert.
Disinfection of swimming pool water	6 to 15 mL in 1 ton of water
