

Alkali

Phosphate-Free

Non-Deleterious Substance

Clean troublesome fryers with ease.

Commercial Use Fryer Cleaner

Nitaka Fryer Cleaner

Features

Clean Stubborn Grease from Every Corner!

Simply add water and bring to the boil.
The product dissolves and starts working at once.
Also cleans the stubborn grime on the back of the heater **with ease**.

Work in Safety

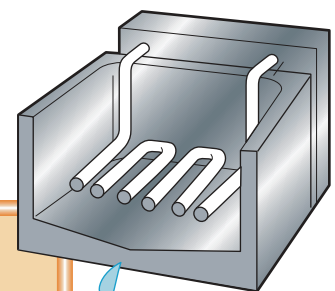

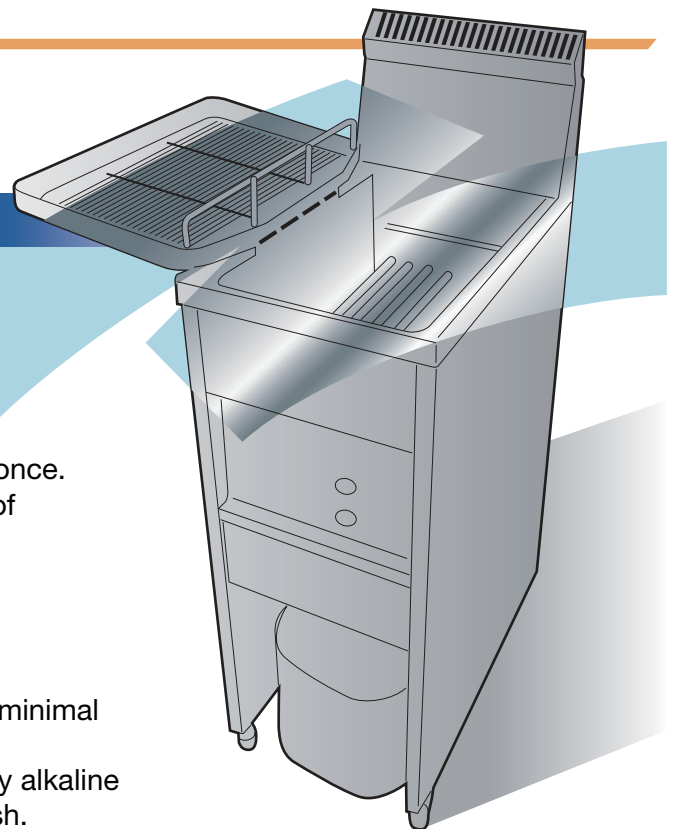

- The powder does not scatter and generates minimal foam for ease of use.
- Use with peace of mind. Contains no strongly alkaline agents such as caustic soda or caustic potash.

Dedicated Neutralizer Also Available

Dedicated food safe neutralizer also available.
Simple and easy neutralization.

Neutralizer for Alkaline Cleaner (sold separately)

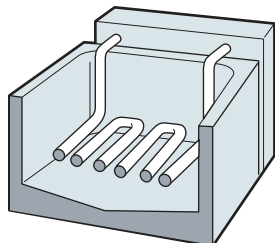

Product code: 239930 Packaging: 1.2 kg × 4 bags

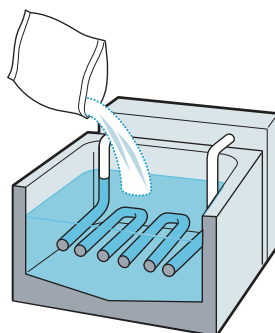

Instructions for Use

*Diagrams show cross-sections of equipment.

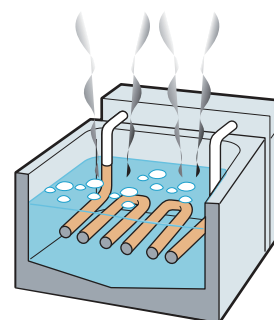

1 Remove the oil and other debris from the fryer.

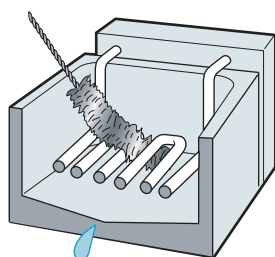

2 Fill with water slightly above the original oil level and add Fryer Cleaner.

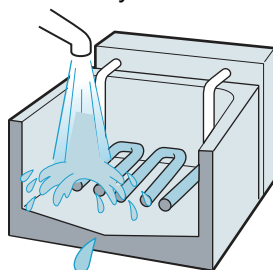

3 Boil for 10 to 20 minutes then stop heating.

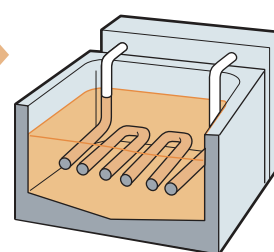

4 Drain the water and scrub the insides lightly with a brush.

5 Rinse thoroughly with running water, allowing the water to fill the fryer before draining.

6 Dry the fryer before adding oil.

Precautions for Use

- Wear protective eyewear and dishwashing gloves during use.
- Take care to avoid scalds/burns during use.
- Do not mix with other chemicals/cleaners.
- Do not use in fryers made from aluminum.
- Do not neutralize the used cleaning solution while still inside the fryer. The cleaning agents may re-adhere to the fryer.
- Always read the "Instructions for Use" and "Precautions for Use" printed on the product before use.

Ingredients Label, etc.

◆Acidity/Alkalinity	Alkali
◆Ingredients	Alkaline agents (silicate, carbonate), carboxylate, surfactants (polyoxyethylene alkyl ether, linear alkylbenzene sulfonate)
◆Suggested Amount	100 to 500 g per 10 L of water (adjust amount according to degree of soiling)

*This product may harden and change color over time. These changes do not affect product quality or usage.
*If the powder hardens, break it up by kneading before use.

The appearance and labeling of this product may be altered without notice.
