

SaniPlan

Effective and Reliable Foam Cleaning System

Commercial Use
For food production plants

SaniPlan® Foam Sprayer N

A lightweight, easy to carry, and simple to operate foam cleaning system. An indispensable tool for effective cleaning and disinfection work.

Features

Generates a fine foam

The nozzle produces a fine and robust foam that remains attached to sprayed surfaces. Maximizes cleaning and disinfection performance.

Lightweight and simple to operate

Made from plastic to save weight and improve operation and handling.
Also resistant to corrosion. Simple to add and drain liquids and connect high-pressure hoses.

*Requires a separate air compressor.

Use with Niitaka's SaniPlan cleaning and disinfecting products.
